IMPORTANT CHANGE FAILED TO RECOVER IN AMERICAN FLAG

Stockholders Decide to Operate on Much More Extensive Scale.

stellation group of claims, and that it is desirous of prosecuting development work on a more extensive scale, and of pushing things" generally. Though a majority of the additional shares in the corporation will remain intact in the treasury, some of the stock will be placed on the market and sold, in order that, as stated, operations may be extended on the market which will be proved on the market and sold, in order that, as stated, operations may be rectained on its amaner which will e carried on to a manner which will elipse all former development. An important incidental of the meet

ing, also, was the discussion of the bothersome water question, and it was decided that in the near future plans shall be consummated which will result shall be consummated which will result in the effective solution of this problem. The advisability of making necessary connections with the Ontario tunnel for the draining of the mine, was disensed, and the installation of a spump was also considered. If this latter method is decided upon, the pump will be electrically operated. With the mine once free of water it is felt that no difficulty will be experienced in keeping a free, and thus the handicap under which operations have been continued for four or five years past, will have been removed.

for four or five years past, will have been removed.

The management of the property realizes the necessity of overcoming the water difficulty, for it is generally conceded to be the only thing that at the persent time stands in the way of the making of a mighty big producer of the Flag. While the upper levels have furnished regular shipments for a long time past, and while a vast tonuage of good milling ore has been blocked out as the work has progressed, it is to the lower levels that those in a position to know, look for the real values of the mine. From past developments and indications, not alone in the Flag, but from the relations other big producers bear to this property, there is every reason to believe that work at depth would before very long result in the opening up of immense deposits of high grade ore. The gold values in the American Flag product are unusual for the Park City district, and have already added not a little to the profits of the mine's shipments.

Conservatism has ever been a characteristic trait of the Flag management and though comparatively little has been said regarding its work, effective and systematic progress has been made; the mine has been product as such an extent that those directly interested feel that the time has come to branch out, and to begin operations is the extensive manner which the con-

to branch out, and to begin operations is the extensive manner which the condition of the property warrants. Parkites generally believe that the Ping is going to take its place among the gights of their camp, and judging the gights of their camp. om recent developments, their faith well founded.

MINING COMPANIES WILL HOLD MEETINGS

The regular monthly meeting of the directors of the Tracle Sam Mining company has been called for Monday bext. November S. at the offices in this city It is expected that only routine business including the posting of the usual 2 cent dividend. Bio.000, will be transacted. The regular monthly meeting of the May Day company will be held on the eatne day and as far as known there are no special matters of importance to be discussed at that time.

Some disappointment has been caused in Ploche by the complete closing down of the Day mine, and hence the cessation of all activities by the Nevada-Utah Mining and Smelting corporation. This is understood to be due to the closing of the Tintic smelter and the raising of rates by the other smelters, so that the low-grade fluxing ore could not be handled at a profit. Metal Quotations.

EVANS PROPERTIES

David Evans of the Indian Queen and King David preperties was in the city Wednesday, and will remain for two or three days attending to business interests. Work in both of these properties is progressing nicely, and indications continue very encouraging. The shaft at the King David has passed the \$69-foot mark, and will be continued at least to the 700-foot level before drifting is commenced.

the 700-foot level before drilling is commenced.

The tunnel at the Indian Queen is in about 3750 feet, and the drift is now being followed along a highly mineralized fissure, which it is expected will make into ore before long. Mr. Evans is well pleased with the showings generally and is sanguine regarding future developments.

Ore and Bullion. The ore and bullion report posted by McCornick & Co. Wednesday, follows Ore received, \$80.000; bullion shipped \$60,000; total, \$140,000.

Ore Shipments.

The ore releasements reported by the local sampling company officers. Wednesday, were as follows: Taylor-Brunton, 9 cars of Utah ore: Pioneer, 6 cars of Utah ore.

If you desire a clear complexion take Foley's Orino Laxative for coastipation and liver trouble, as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in order to feel well. Schramm-Johnson Drug Co.

Metal Quotations.

The metal quotations furnished by Mc-Cornick & Co., Wednesday, were as follows: Silver, 504c; copper, 12 9-16c; lead, \$4.46.

Wanted—Any part of 1000 shares Utah Karns Tunnelling machine stock; state lowest cash price. Address, q 24, Tribune.

GOLDFIELD CON. HAS PLENTY OF MONEY

Accompanying the dividend checks rerelived on the first of this month by the
stockholders of the Goldfield Consolidated
Mines company was the official report
of the secretary and treasurer of the corporation for the quarter ending September 39. This report shows the total net
receipts of the company for the months
of July August and September to have
been \$977,119.75, which, added to the cash
balance on band July 1, amounting to \$1,\$57,671.89, gave a total of \$2,964.151.14.
From this amount was subtracted dividend number 4, amounting to \$1,057,\$51.50, leaving a cash balance on band
September 39 of \$1,87,986.84. Accordingly the cash balance of the company on
October 31 was this sum, plus the earnings for October, and minus the dividend just paid. No. 5. The report states
that the disbursements of July were augmented by the purchase of the subsidiary companies, involving a net outlay of
\$571,592.25; those of September were increased by a disbursement of \$45,266.36
for bullion tax of previous quarter, so
that the net receipts of the next quarter will probably be somewhat in excess
of the previous three months.

Mining Notes.

Mining Notes.

Manager Tony Jacobson of the Columbus properties at Alia is on one of his regular visits to the mines. Charles Getsch, engineer for the Wood-Hagenbarth interests, has gone to Idaho to examine property in that section Superintendent E. L. Talbet of the Daly West at Park City, is visiting it Salt Lake on business.

Manager George Dern of the Con Mer-ur and Roston Sunshine properties was n the city Wednesday on business con-lected with his interests.

Lester Mangum of the Knight staff was in the city Wednesday on business.
